**FROM CUSTODIANS OF THE CADASTRE
TO CUSTODIANS OF THE CADASTRAL
DATABASE – THE FUTURE ROLE OF
SURVEYORS**

By Ian Harper, Geodata Australia

Ian specialises in Cadastral Modelling for Government and Infrastructure projects. He proposes that the creation and management of survey databases from survey measurements (new and old) should underpin the future cadastral database environment which should make surveyors more relevant to the digital future. Last year Ian presented at a Conference on Land and Poverty at the World Bank headquarters in Washington DC.

Finding Bennelong

By Fred De Belin, Manager Survey Ryde City Council

Surveying solves a 200 year old mystery. Fred's presentation will outline the response by Council surveyors to a request by historian Dr Peter Mitchell to verify his conclusion as to the location of the grave site of the famous Bennelong. Fred will also provide a short update on the preservation of underground survey reference marks.

Also on the night will be the usual updates on the Institution, SMIC, BOSSI, Seniors Group and the Young Surveyors Group. *You don't want to miss this one!!*
