Excellence Award Finalist:
Lake Victoria Outlet Survey

By **Brian Hammonds**, RPS Australia

Brian Hammonds is the Technical Director (Surveying) of RPS Australia's Southern Division. The project was a survey of the Lake Victoria outlet without any significant shutdown of the dam. It involved use of an inverted tripod with attached scanner, traditional detail survey methods (including underwater) and stitching all survey components to create a full model. What makes an Excellent project? – Please join us to find out!

New BOSSI Policies relevant to the
Investigations of Complaints against
Surveyors

By **Mark Gordon**, BOSSI member

Over the last 10 years, BOSSI has received on average 5 complaints against surveyors per annum. About half of these have been proven as resulting from actions by the surveyor. What's the difference between an "oops" and incompetence? How does BOSSI define "misconduct"? Do "squeaky door" complainants always win? Without identifying individual surveyors, Mark will illustrate recent BOSSI policies and determinations that are designed to assist registered surveyors to undertake their professional duties.

Also on the night will be the usual updates on the Institution, SMIC, BOSSI, Seniors Group and the Young Surveyors Group. *You don't want to miss this one!!*
